

## EASE Focus - Generic Aiming and Acoustic Modeling Software

Licence Fees / August 2006

Licence Options	Licence Fee
<b>EASE Focus Compiler – Unlimited Licence</b>	
Owners of a regular EASE 4.x or EASERA 1.x licence	7,100.00 EUR
Upgrade from Single Licence	3,700.00 EUR
Separate Licence	7,800.00 EUR
Upgrade from Single Licence	4,000.00 EUR

The Unlimited Licence includes support for an unlimited number of loudspeaker systems, bound only to a manufacturer label. The EASE Focus Compiler Software will be provided along with a company-specific key file. Using the standalone Compiler Software additional arrays can be developed, tested and introduced at any time, already existing arrays can be updated. Data entry can be taken over by SDA for an additional service fee.

### EASE Focus Compiler – Single Licence

Owners of a regular EASE 4.x or EASERA 1.x licence	3,500.00 EUR
Separate Licence	3,900.00 EUR

The Single Licence includes support for a single loudspeaker system, bound to a system name and to a manufacturer label. For creation of the data file an account for the web-based EASE Focus Online Compiler will be provided. The specified system can be introduced and updated at any time using this interface. Data entry can be taken over by SDA for an additional service fee.

### Terms and Conditions

**Shipping:** Any software components are provided by email or by means of an FTP account.  
**Licences:** The licence fee for the EASE Focus Compiler software covers its use by the licensing company. Use of the software is ongoing with no fixed termination or renewal date. There is no annual or bi-annual renewal fee. The initial licence fee covers up to 6 months of free email, telephone or fax software support. **Limitations:** 1. EASE Focus Compiler licences are subject to all the normal laws and restrictions governing the use and sale of software. Details are provided with the software or are available in advance on request. 2. EASE Focus is a software utilizing data files with loudspeaker data for different systems as provided by the manufacturer. SDA accepts no responsibility for the accuracy of the data submitted. **Computer Requirements:** EASE Focus runs under Windows 98, Windows 2000 and Windows XP operating systems on PC's with a VGA graphics system. Minimum requirements are a machine with 128MB of RAM, 300MHz clock speed and at least 2 gigabyte of hard disk space. Faster systems are recommended. **Terms Of Sale:** All orders are subject to our review and approval. Terms of sale are wire payments unless other terms are approved by SDA. All sales are final. **Prices:** Prices effective August 1, 2006, prices are subject to change without notice.
